Be Thankful for What You Have

Katrina lived with her mother and father in a small white house. All the other houses in the neighborhood looked the same except the house next door to Katrina. This house had broken windows, missing tiles on the roof, and needed new paint. Everyone who lived in the area thought this house looked awful. No one had lived there for some time.

One Saturday morning, a pickup truck loaded with boxes and furniture arrived. Katrina saw a man, a woman, and a boy get out of the truck. They stopped on the front lawn and gazed at their new home. She watched as they took things from the truck and carried them into the house. Within twenty minutes, everything was safely placed inside.

On Monday morning, Katrina left for school as usual. As she entered her classroom she heard her teacher say, "This is David Bateman, please make him feel welcome." Katrina recognized him right away. He was the boy who had just moved in to the house next to hers. The

teacher asked Katrina to show him around the school.

At lunchtime, Katrina showed David the way to the lunchroom. As they ate their lunch, David told Katrina he was excited to be living in his new house. Katrina looked surprised and asked, "Don't you think it needs a lot of fixing?"

David explained that he and his parents had spent the weekend making plans. They wanted to fix the house so that it would look like all the other houses in the neighborhood. They knew it would take a lot of time and hard work. They felt it would be worth it. They had never owned their own house or lived in such a nice neighborhood.

Katrina realized she was very lucky. She had always lived in a nice neighborhood. Listening to David's story made her feel thankful for all that she had. Sometimes another person helps you understand how much you have.
